PAYMENT, PACKING & SHIPPING INSTRUCTIONS

Be sure to complete the form above with all your contact information. Be sure to include your name, return address & phone number (best one to contact you).

1. Individually wrap your blades in newspaper or paper towels even if you are shipping them in a blade box. The teeth on blades, as you know are pretty fragile.
2. Ship your scissors in well padded scissor case or individually wrap your scissors in newspaper or paper towels.
3. Wrap clippers in multiple layers for paper, the cord does not need to be included in the wrapping.
4. After everything is carefully individually wrapped you need to pack it all into a box with sufficient packing material (packing peanuts or crumpled paper work well) to keep anything from moving around in the box.
The whole Idea is to pack the box where the items do not move around at all. Close the box and shake it, if stuff rattles around you need more packing material. The post office supplies free priority mailing boxes and are often an excellent way to ship.
Follow these instructions to help insure your equipment is not damaged during shipping
Blades will be returned oiled, individually bagged and heat sealed in plastic bags and wrapped.
Clippers will be returned in bubble wrap.
Return shipping will be, in most cases, Priority Mail and you will usually receive your package in two to three business days.
Usual turn around time is less than 2 business days
5. If you would like to insure your package please do so. We are not responsible for lost or damaged packages in transit.

6. Payment options and information form is on page 1 above.

7. Ship To Address: Eclipse Sharpening
PO Box 60212
Renton, WA 98058
